

Mobility Policies & Cycling in the European Union and its member States

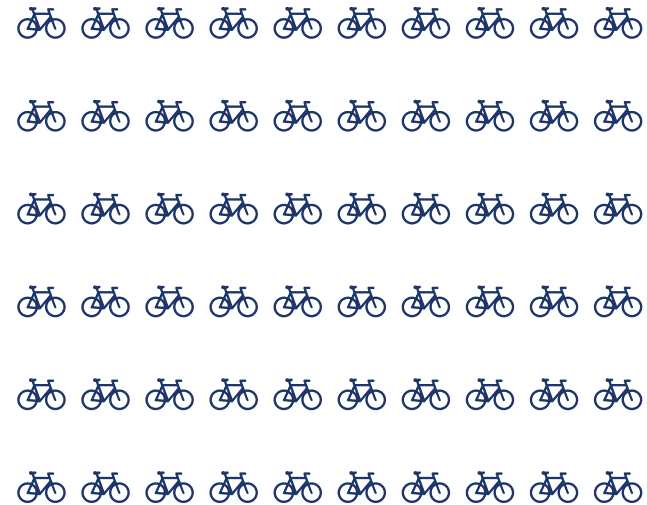

Ulrich Syberg, President ADFC

Electric Mobility

600 Million € / 7.000 e-Cars

~ 0 € / 1.3 Million Pedelecs

➔ More money for good infrastructure for Cyclists, more Subsidy for Change – less for Car-industry

truth in cost: Health

- lack of physical activity
 - Epidemic rise of diabetes II
 - diabetes II + obesity causes over 50 Billion€ / year for German Health insurance.
- ➔ Investment in Infrastructure, must be considered by their complete impact of all cost, including the "external costs"
- ➔ Regulation by law as condition for public money – in Germany, in all member states and in the EU

European Cycling Coordinator

→ To coordinate Cycling policies in EU a European Cycling Coordinator is necessary!

Thank you!
